## PROJECTS

### Lifeline Donor's

- The main aim of this project is to save lives of people by providing blood. Our project Online Blood Bank system Android is developed so that users can view the information of nearby volunteer donors. This is developed by perspectives i.e. volunteer donors and patients. This application reduces the time to a greater extent that is searching for the required blood.

### Online Shopping Portal

- Developed an e-commerce web application that allows users to browse products, add items to cart, and securely purchase items online. Integrated user authentication, product management, and payment gateway functionalities to ensure a seamless shopping experience.
